BCSIT Student | AI & Machine Learning Enthusiast

Professional Summary

Passionate and motivated BCSIT student with a strong interest in Artificial Intelligence, Machine Learning, and Deep Learning. Skilled in Python programming, data analysis, and developing machine learning applications. Continuously learning modern AI technologies and building practical projects to strengthen problem-solving and software development skills.

Education

Bachelor of Computer System and Information Technology (BCSIT) - Currently Pursuing

Technical Skills

Python, PHP, SQL, JavaScript, HTML, CSS, React.js, NumPy, Pandas, Scikit-learn, TensorFlow, Keras, MySQL, PostgreSQL, SQLite, Git, GitHub, VS Code, Jupyter Notebook, Streamlit, FastAPI.

Projects

Fake News Detection

ML model using TF-IDF and Scikit-learn with Streamlit interface.

Customer Churn Prediction

ANN-based deep learning prediction system.

IMDb Sentiment Analysis

RNN/LSTM sentiment classification project.

Portfolio Website

Responsive portfolio built with React.js.

Career Objective

To begin my career as an AI/ML Engineer where I can apply my knowledge of Artificial Intelligence, Machine Learning, and Deep Learning to solve real-world problems while continuously learning and contributing to innovative technology solutions.
